PROPOSED INTERVIEW AGENDA

Dear Sir:

Applicants have requested an interview between the undersigned and the Examiner and the Examiner's Supervisor to discuss the following agenda. The interview has been scheduled for Tuesday, July 29, 2003 at 4:00 EDT. In the event this schedule is in error or is inconvenient for the Examiners, the Examiner is kindly requested to contact the undersigned at his earliest convenience to reschedule.

Applicants request that the following issues be discussed:

Serial no. 09/675,451
Proposed Interview Agenda
Page 2

1. The subject matter of the pending independent claim 1, particularly recitations relating to the physical representation of components and the system as recited in claim 1;

2. The subject matter recited in pending independent claim 14, particularly recitations relating to the inclusion of physical location data in a dedicated memory, and the generation of a physical representation of the components positioned in approximate relative position with respect to other components of the system, as recited in the claim;

3. The subject matter recited in pending independent claim 24, particularly recitations relating to the storage in a component memory of physical configuration data including data identifying a physical disposition of the respective component in an enclosure set, and the generation of a real time elevational view of the system based upon such data;

4. The subject matter recited in pending independent claim 32, particularly recitations relating to the memory object allocated for physical configuration data including data identifying a physical disposition of a respective component, and a monitoring station configured to generate and display a representation of the system based upon such data;

5. The subject matter recited in pending independent claim 39, particularly recitations relating to the memory object for storing physical configuration data including data identifying a physical disposition of the respective component in the enclosure set, and the monitoring station configured to generate display a representation of the system based upon such data; and

Serial no. 09/675,451
Proposed Interview Agenda

6. The disclosure of the Richardson reference (USPN 6,054,987) and the failure of the reference to disclose the subject matter noted above, either explicitly, implicitly, inherently, or otherwise.

Respectfully submitted,

Date: _____
